E- Visualise -INFOGRAPHICS

An **infographic poster** is a visual representation that presents information in a compelling and easily digestible format.

Infographic posters aim to convey complex information using engaging visual elements such as icons, graphs, charts, and stylish fonts.

A well-crafted title evokes curiosity, making it easier for the audience to engage with the content.

Effective headers include a title, a subtitle, and a logical flow of information, Icons, illustrations, and colour schemes enhance understanding and retention.

Ample white space ensures readability and prevents visual clutter.

Who can present?

This category is open only to undergraduate students.

What can be presented?

You can present topics learnt about Autism so far, or any new knowledge gained, updates, evidence based new trends and therapy methods. Can include info on non-clinical aspects like parent support, government schemes etc also with regard to care for children with Autism.

GUIDELINES TO PREPARE E-VISUALISE

- Use Times New Roman font with a font size of 24 in the slides. Ensure that the graphs/tables are readable.

- The header should have the name of the conference – **8ʳᵗʰ Annual NICE Conference on AUTISM**

Preparing your Content
